Anthony E. Beckles, Sr., Chief Financial Officer

Subject: Finance Report

#### **Summary/Description:**

The school administration, in accordance with the FY2015-16 school operating budget, authorized, approved, and processed the necessary payments through February 29, 2016. The school administration certifies that the amounts approved are within budgetary limits and revenue.

The operating fund expenditure report summarizes the payments made through February 29, 2016, for the operating fund.

Total Operating Fund Budget	\$ 90,820,024.00
Prior Year End Encumbrances	\$ 90,304.40
Insurance Proceeds	\$ 54,180.84
School Bus Funding	\$ 977,000.00
Fund Balance Return	\$ 2,316,449.00
Restricted Donations	\$ 1,105.00
Adjusted Budget	\$ 94,259,063.24

Through February 29, 2016

Actual Revenue Received \$ 53,658,057.29
Actual Expenditures \$ 54,767,590.15
Actual Encumbered \$ 31,726,075.19

Percent of Budget Received 56.93% Percent of Budget Used, excluding encumbrances 58.10%

As of 2/29/16 – 8 months 66.67%

The revenue and expenditure reports detail the transactions recorded through February 29, 2016. All reports appear as attachments to the agenda report.

**Subject:** E. C. Glass High School: International Travel

#### **Summary/Description:**

Through the German American Partnership Program (GAPP), each year over 10,000 American and German students participate in an exchange program between high schools in the United States and secondary schools in Germany. Through this program, students from Lynchburg City Schools and Vicco von Bullow Gymnasium, a secondary school located outside of Berlin, have established an active partnership. Most recently, in fall 2015, 13 German students visited Lynchburg, living with their host families, attending school, participating in school activities, and touring historically significant sites in the area.

Ms. Magdalena Markovinovic, German teacher at E. C. Glass High School, will provide information and details about an opportunity for 10 students to travel to Germany this summer and immerse themselves in an in-depth language and intercultural learning experience. Tonight's presentation is intended to provide the school board with information about the following:

- Purpose
- Student Participants
- Itinerary
  - o Dates
  - Travel Arrangements
  - Typical Daily Schedules
- Chaperones
- Safety and Behavior Plans
  - State Department Travel Advisories
  - GAPP Code of Conduct
  - Medications and Other Health-Related Information
- Meetings with Parents and Students

Disposition:	Action
-	☐ Information
	Action at Meeting on:

#### Recommendation:

The superintendent recommends that the school board approve the international travel for E. C. Glass High School.

**Subject:** Request for Reallocation of Budget

#### **Summary/Description:**

The school administration has recognized a need to reallocate funds to various salary and operating accounts throughout the school division. Funds to:

<ul> <li>replace roof at Dearington Elementary School for Innovation</li> </ul>	\$68,000
increase IT salary budget	\$63,300
<ul> <li>increase legal fees budget in Administration</li> </ul>	\$40,000
<ul> <li>increase purchase service budget in SPED</li> </ul>	\$39,000
<ul> <li>fund Project Graduation due to a reduction in grant funding</li> </ul>	\$30,600
<ul> <li>pay teachers to update PAR guides during the summer break</li> </ul>	\$18,000
<ul> <li>increase travel/professional development budget in Administration</li> </ul>	\$10,000
<ul> <li>purchase AED's and other health supplies</li> </ul>	\$10,000
<ul> <li>increase purchase service budget in Student Learning &amp; Success</li> </ul>	\$10,000
<ul> <li>increase purchase services and travel budget in CTE</li> </ul>	\$ 9,500
<ul> <li>assist with cost of the Partners in Education breakfast</li> </ul>	\$ 6,000
<ul> <li>purchase Board Maker software for SPED</li> </ul>	\$ 6,000
<ul> <li>cover maintenance fees for the PIE software</li> </ul>	\$ 4,500
<ul> <li>establish a purchase service budget for ESL</li> </ul>	\$ 4,400
<ul> <li>purchase storage lockers for the band instruments at DMS</li> </ul>	\$ 4,200
<ul> <li>purchase Pre-K registration materials</li> </ul>	\$ 3,000
Total reallocation requests	\$326,500

Given school board approval, the funds to purchase or make adjustments to existing budgets will come from available funds within the existing operating budget.

Various Salaries and Non-Personnel accounts	\$326,500

Date: 03/15/16

Agenda Number: D-3

Attachments: No

#### Additional Information on some of the above items:

Action at Meeting on:

**Facilities & Maintenance (\$68,000)** – The heavy rains last October revealed several holes in the roof at Dearington Elementary School. Due to the extent of the roof damage, it was decided that it would have been more cost effective to replace the entire roof. This request would replace the funds used from Facilities & Maintenance operating budget.

**Salary Reallocations (\$63,000)** – Due to the hiring of replacement staff, some of the salaries were higher than the amount budgeted.

**Legal Fees (\$40,000)** – Legal fees costs for the year is estimated be around \$70,000 which exceed the current budget of \$30,000. This year we are using legal services more to ensure cases are evaluated correctly.

**Purchase Services in SPED (\$39,000)** – Special education had budgeted to hire two speech interpreters; however they were unable to locate interpreters. The only recourse available was to contract Speech Interpreters through a private company to meet the needs of our students.

**Project Graduation (\$30,600)** – The Project program is a grant funded program to provide remedial instruction and assessment opportunities for students at risk of not meeting the Commonwealth's diploma requirements. The grant request was only funded at \$12,151. The funds requested will allow for the program to be completed this year.

**Salaries (\$18,000)** – We need to make ongoing updates to our PAR guides, the curriculum and pasting resource that is used by our teachers for instruction from pre-K through 12 grade. These updates include realigning standards and timing to match the new social studies standards from VDOE. These funds will be used to pay teachers to update the PAR guides during the summer break.

The school administration requests these budget adjustments be approved for the 2015-16 schoo
year in order to fund these one-time adjustments or purchases.
Disposition: 🛛 Action
☐ Information

#### **Recommendation:**

The superintendent recommends that the school board approve the request for reallocation of budget.

**Subject:** Lynchburg City Schools Intersession Update

#### **Summary/Description:**

Lynchburg City Schools was awarded \$368,318 for a Start – Up Grant for an Extended School Year. The grant, Extending Opportunities for Success, supports six days of instruction during intersession outlined in 2015-2016 calendar. This presentation will provide the school board with a summary of February 2016 Intersession, compare participation data from October 2015 Intersession, and look ahead to Intersession days during the 2016-2017 school year.

**Subject:** Middle School Program of Studies: 2016-2017

#### **Summary/Description:**

The school board annually reviews and approves the Middle School Program of Studies for the next school year. The updated version for 2016-2017 will be introduced, with the following key changes recommended:

- Updated introductory explanation of middle school and course selection
- Organization of the course by grade level
- Description of math pathways
- Course placement criteria
- Intent to provide Latin and Algebra 2 at MS if possible
- Retention policy
- Expunging policy
- Upcoming updates to gifted services

Disposition: ☐ Action ☐ Information ☐ Action at Meeting on: 04/05/16

**Recommendation:** The superintendent recommends that the school board receive this agenda report as an informational item and consider action at the school board meeting on April 5, 2016.

#### Dear LCS Students and Parents:

Welcome to middle school! We are proud of our three comprehensive middle schools. Although each middle school has unique features, there are many common characteristics that provide for an environment and structure especially created for the middle school student. They include the following:

- Team planning: Middle school teachers have team planning time that allows them to develop instructional units, plan team activities, and monitor student progress.
- Electives: Middle schools offer a variety of elective options that vary depending on student/parent interest and staff availability.
- After-School Academic Support: Middle school students are able to receive extra support from their teachers on Tuesday and Thursday at each middle school. LCS bus transportation is provided to support after-school academic support on these days.

The Middle School Program of Studies is designed to assist parents and students with course selections by giving a brief description of the curriculum content of each course. Required courses in English, mathematics, physical education/health, science and social studies are offered at each school. An overview of electives offered at your child's middle school is available through the school counselor.

While in middle school, academic career plans will be created for every student. Development of this comprehensive academic and career plan is best accomplished through the collaboration of students, parents, teachers, principals, and counselors. A well-developed and detailed plan will ensure the fidelity of our LCS mission statement, "Every Child by Name and by Need, to Graduation." Please be in contact with your child's school counselor in order to receive support in creating an individualized plan for your child.

For both students and parents, it is my greatest hope that we will serve you well throughout your middle school years.

Sincerely,

Scott S. Brabrand, Ed.D. Superintendent

# **Middle School Program Overview**

The purpose and intent of our Middle School Program of Studies is to help students and their parents:

- Learn about courses and programs offered in our middle schools
- Successfully make the academic and personal-social transition from elementary school
- Make informed decisions concerning courses and receive answers to commonly asked questions
- Better prepare for and understand Virginia's graduation requirements
- Gain understanding of the importance of school performance and how it relates to an individual's goals for further education and career choices
- Help plan and develop academic career plans to meet educational and career goals

The middle school provides instruction in core content knowledge and skills as well as elective and exploratory experiences appropriate to the developmental needs of early adolescents. In bridging the gap between elementary school and high school, the middle school moves the student from the child-centered and unit approach of the elementary school to the departmentalized, diversified, and comprehensive instructional program available in the high school. Students are encouraged to explore and challenge themselves through a variety of subject areas and activities. The middle school day is divided into eight academic periods and a lunch period.

The city's three middle schools offer a unified body of instruction based on the Standards of Learning for the Commonwealth of Virginia. All middle school students take at least one period of each of the four core academic areas: English, math, science, and social studies. Descriptions for these core academic courses are found in the core curriculum section of this document.

In addition to the core academic courses, all students participate in a physical education and health course along with the opportunity for exploratory classes and/or electives. The exploratory classes are generally nine weeks in length whereas elective offerings are semester courses and both vary among the schools. We have outlined the various offerings in the middle school electives section of the Program of Studies.

## **Keys to Middle School Success**

Middle school can be a rewarding experience for every student but can bring anxiety due to the variety of transitions that occur in this new environment such as multiple teachers. We have found that students who experience success in school have identified the following pointers as keys to their success:

- Attending school regularly
- Applying consistent effort
- Participating in class
- Completing all assignments
- Asking for assistance if information is not understood
- Being organized (keeping an agenda)
- Setting time aside daily to study and review material
- Engaging in extracurricular activities according to special interests

## **Course Selection Decisions**

The selection of courses for a student in middle school should be a decision that will provide instructional rigor and challenge students in every subject area. Therefore, we want students and parents to continue to select courses that will support the student's personal academic and career goals.

#### **Differences between Grade Level and Advanced Course-**

Courses are offered at different levels of difficulty beyond the grade level content in order to provide students opportunities for challenging their learning and growing at a more rapid pace. The following provide general differences between the course types. In some cases, additional information is provided in the specific course descriptions:

**Grade Level Course** – Course content is at the level of rigor of the Standards of Learning or the defined curriculum (for courses that are not included in the Virginia Standards of Learning). More individualized support is often provided.

**Advanced Course** – Course content includes the rigor of SOLs while also requiring additional content and deeper application of the content. Assignments may include additional work that may also require more self-direction by the student. Some advanced courses include components of gifted instructional approaches.

\*Note: Parents should be aware that our school division expects students to pursue the most rigorous classes of which they are capable. The courses selected during middle school can impact which courses students can take during high school. Also, math and/or foreign language courses bearing high school credit are an option to some students based on their math and/or foreign language placement in 7<sup>th</sup> or 8<sup>th</sup> grade.

# Registering for Classes at Middle School

The registration process for current 6<sup>th</sup>, 7<sup>th</sup>, and 8<sup>th</sup> graders generally begins during third quarter each year. School counselors initiate the process and involve teachers in making recommendations for the following school year concerning course placement.

- The school counselor meets with students to explain course options, recommendations, and requirements. Course selections are based on the student's current academic progress and interests, teacher recommendations, and parent feedback.
- The student is required to share these initial course selections with parents/guardians for feedback and approval and then returns the signed course selection sheet to the designated teacher. Parents are encouraged to schedule a meeting with the school counselor for questions and/or concerns regarding registration.

## **Academic and Career Plans**

All middle school students will transition to the high school with a comprehensive academic and career plan (**ACP**) that will be developed each year during middle school by using various learning and career inventories to help establish each student's academic and career interests. This is normally started in the beginning of their 7<sup>th</sup> grade year and completed by the spring of their 8<sup>th</sup> grade year.

The components of the ACP shall include, but are not limited to middle and high school course selections, career interests, and diploma requirements. This is a working document that is reviewed each year and amended based on the changing desires and needs of the individual student. The goal is to maximize student achievement by remaining focused on what is required to obtain his/her personal postsecondary and career readiness through a personal learning plan.

# **High School Graduation Requirements**

High School graduation requirements are listed in the High School Program of Studies and can be found on the Lynchburg City Schools' website. A printed copy is available in the counseling department for any parent who would like to obtain one. Also, all 8<sup>th</sup> graders will receive a printed copy of the HS Program of Studies.

# **Grade Point Average (GPA) Calculations**

The Grade Point Average (GPA) calculation is a way to quantify the overall academic achievement of a student in a single number. The GPA calculation is used for ranking graduating students and is often requested on applications for awards, recognitions, certain memberships or positions, and on college applications. This value is determined by the grades a student earns and by the level of difficulty of the courses taken.

In the Lynchburg City Schools, there are three levels of courses, and each allocates a different number of quality points for a given grade. For most classes, an "A" is worth 4 points, a "B" is worth 3 points, a "C" is worth 2 points, a "D" is worth 1 point, and an "F" is worth zero points. If a student takes an advanced level course, an additional 0.5 points is added to any grade earned above an "F". If a student takes an Advanced Placement (AP) course (or identified Dual Enrollment courses or CVGS courses), an additional full point is added to any grade earned above an "F".

**Quality Points Per Semester Credit** 

Advanced Placement,			
CVGS, and Dual	Advanced Courses		
Enrollment Courses in	and Specified Dual		
Core Content Areas	<b>Enrollment Courses</b>	All Other	
A – 5	A – 4.5	A – 4	
B – 4	B – 3.5	B - 3	
C – 3	C – 2.5	C – 2	
D – 2	D – 1.5	D – 1	
F – 0	F – 0	F – 0	

# NEW Policy-Calculating the Grade Point Average (GPA) High School Credit Courses

During the 2016-2017 school year, LCS will begin the process of transitioning to a new method of calculating the GPA. The new GPA, when fully implemented, will be calculated as follows: The calculation of GPA, used for determining class rank, will be made by dividing the sum of quality points by the number of credits.

- This calculation will be adjusted if a student exceeds a threshold of the number of course points above 4.0. The maximum number of quality points above a 4.0 for a course that can count in the GPA is:
  - 1.5 points from middle school
  - 2.5 points in 9th grade
  - 2.5 points in 10th grade
  - 4.5 points in 11th grade
  - 5.0 points in 12th grade
- If a student is taking six graded classes as a full load and has a GPA for the year that is above a 4.0, then that student's GPA calculation includes adding a 4.0 to the year's courses and dividing by 7 courses.
- A student must be taking a full load of courses each year to be considered for class rank honors. Special exceptions require approval by the principal and assistant superintendent.
- Courses taken during the summer count in the GPA for the school year beginning that fall.

The new GPA calculations will be implemented according to the following timeline:

- For students who are in 10th grade or younger in the 2016-2017 school year, the new GPA calculations will be applied to all high school credits earned in the 2016-2017 school year and beyond. Credits earned prior to the 2016-2017 school year will be calculated as they had been under the previous GPA.
- For students who are in 11th or 12th grade in the 2016-2017 school year, the previous GPA calculations will be used for all prior and future high school credits.

# **DRAFT Middle School Retention Policy Update**

Students in middle school are expected to pass each of the four core courses. A proactive approach should be in place to minimize the possibility that a student may fail a course by its conclusion.

If a student has a failing grade at the end of any quarter during the year, the school should meet with the parent and establish an intervention plan for the student to make progress and minimize the possibility of a failing grade for the course. The intervention plan should include support during intersession and at other times and the student should not participate in afterschool sports or activities unless also involved in tutoring support and making progress.

# DRAFT Middle School Retention Policy Update (continued)

If a student does not pass a core course at the time of the end of the school year, the following apply:

#### 6th and 7th grades

- If the student fails only one core course:
  - o If the course had an SOL and the student passed the SOL, the student may receive a passing grade for the course if the student adequately completes a summer assignment (provided by the school) no later than July 31. The student could also elect to enroll in summer school and pass the summer school course.
  - o If the student did not have a passing SOL test for the course not passed, then the student must attend summer school. The student may receive a passing grade for the course if the student passes the summer school course and, if the course is English or math, must also pass a course proficiency assessment.
  - o If the student did not attend summer school or did not pass the summer course and assessment, then the student must repeat the course during the next school year. The student will be promoted to the next grade level, but must take the failed course in addition to the next year's courses. The course may require staying after school and working with a teacher until the course and proficiency test is passed.
- If the student fails two core courses:
  - The student may be promoted to the next grade IF the student is able to pass at least one of the courses during the summer (including the course and proficiency assessment, or the summer assignment if the student had passed the SOL). The student would then need to re-take the remaining failed course the next school year in addition to the next year's courses. Any remaining course may need to be taken during an after-school time, as described above.
- If the student fails three core courses:
  - The student may be promoted to the next grade IF the student is able to pass two courses during the summer (including the course and proficiency assessment, or the summer assignment if the student had passed the SOL). The student would then need to re-take the remaining failed course the next school year in addition to the next year's courses. Any remaining failed course may need to be taken during the after-school time, as described above.
  - o If the student does not pass two courses such that only one course remains as failed, then the student will need to repeat the grade level and re-take all core courses at that grade level. If the student has already repeated a grade level and would be two years older than peers if the grade level was repeated, the student will instead be enrolled in an alternative school in order to provide ongoing support in a smaller environment.
- If the student fails four core courses:
  - The student will need to repeat the grade level and re-take all core courses at that grade level. If the student has already repeated a grade level and would be two years older than peers if the grade level was repeated, the student will instead be enrolled in an alternative school in order to provide ongoing support in a smaller environment.

# DRAFT Middle School Retention Policy Update (continued)

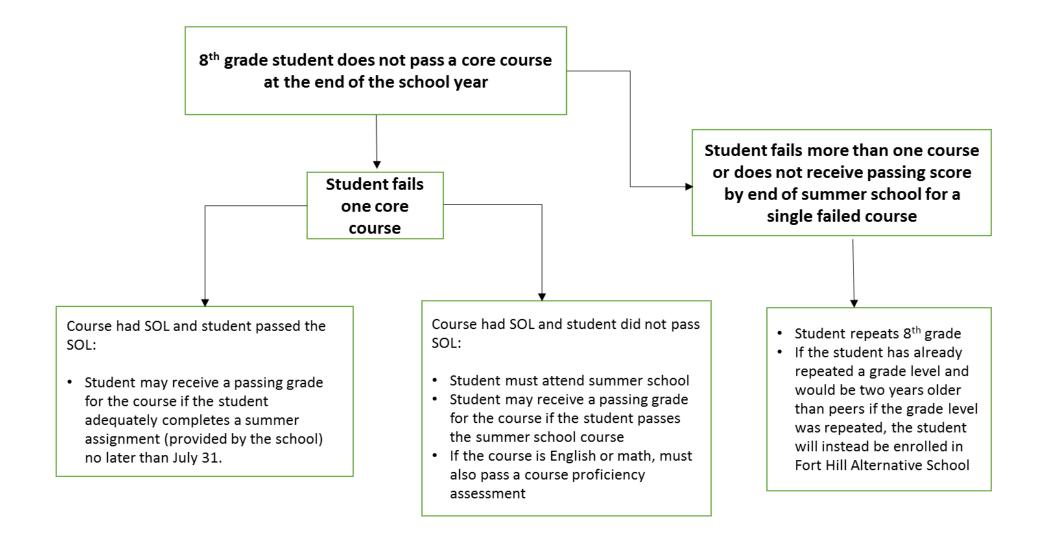

## 8th grade

- If the student fails only one core course:
  - If the course had an SOL and the student passed the SOL, the student may receive a
    passing grade for the course if the student adequately completes a summer assignment
    (provided by the school) no later than July 31. The student could also elect to enroll in
    summer school and pass the summer school course.
  - If the student did not have a passing SOL test for the course not passed, then the student must attend summer school. The student may receive a passing grade for the course if the student passes the summer school course and, if the course is English or math, must also pass a course proficiency assessment.
- If the student fails more than one course or does not achieve a pass by the end of the summer for a single failed course, the student will need to repeat 8<sup>th</sup> grade. If the student has already repeated a grade level and would be two years older than peers if the grade level was repeated, the student will instead be enrolled in an alternative school in order to provide ongoing support in a small environment.

If a student fails an elective, the student may be promoted to the next grade but a conference with the student, parent, and counselor is required prior to the next school year.

#### Draft Middle School Retention Policy Flowchart Student fails an elective. the student may be promoted to the next School meets with parent and grade but a conference establishes intervention plan with the student, parent, and counselor is • Intervention plan must 6th or 7th grade student does not pass a core Student has failing grade include support during required prior to the course at the end of the school year at end of any quarter intersession and at other next school year. times Student should not participate in afterschool Student did not attend Student fails activities or sports unless summer school or did three or four involved in tutoring and Student fails not pass the summer core courses making progress course and assessment: two core courses Student fails • Student must repeat the course during the Student repeats one core next school year the grade level and course Student may be promoted to re-takes all core Student will be Course had SOL and student passed the the next grade IF: courses at that promoted to the next SOL: Course had SOL and student did grade level, but must grade level • Student is able to pass at not pass SOL: · If the student has take the failed course · Student may receive a passing grade least one of the courses in addition to the next already repeated a for the course if the student · Student must attend during the summer grade level and year's courses (course adequately completes a summer summer school (including the course and will take the place of would be two years assignment (provided by the school) • Student may receive a proficiency assessment) older than peers if an elective) no later than July 31. Student re-takes the passing grade for the course the grade level was · Student could instead remaining failed course the if the student passes the repeated, the gain credit for the summer school course next school year in addition failed course through student will instead to the next year's courses • If the course is English or be enrolled in Fort an online option (this will take the place of math, must also pass a Hill Alternative course proficiency an elective) School Page 27 assessment - 10 -

# Draft Middle School Retention Policy Flowchart

# LCS Expunging Grades Policy High School Credit Courses

In accordance with the current *Regulations Establishing Standards for Accrediting Public Schools in Virginia*, parents of a middle school student enrolled in a high school credit course may request that the grade earned in that course be expunged from their child's transcript. This means that the grade will be **omitted** from a student's transcript. Under these guidelines, the grades earned in such classes are **not** included in the high school GPA, and and the student will not receive a credit toward graduation for this course. Typically, this is only considered when a student is taking a high school credit course.

As specified in the *Standards for Accrediting Public Schools in Virginia*, parents of middle school students who are enrolled in high school credit courses may expunge grades of the high school credit component of those courses. Under the guidelines, the grades earned in those classes will NOT be included on the student's high school transcript, and the student will NOT receive high school credit for the courses. The standards further specify that notice of this provision and a document for expunging grades will be provided by the school system. Please contact your middle school Counseling Department for the Expunging Grades Form and to ask any specific questions regarding the expunging grades policy.

Therefore, for each high school credit course a middle school student takes, whether the student will expunge the grade or not, this form must be completed and returned to the appropriate school by the specified deadline dates. If a student remains in the course for the full year, that student will take any associated state Standards of Learning test, and that test score will be maintained in the student's scholastic record. However, if at the end of the year the parents/guardians wish to have the entire year course removed from the transcript, that option will be available.

The school counseling department will send home an *expunge form* with the final report card. At that time, to have an entire year of a course removed from the transcript, a completed form will need to be returned for the course to be removed, and that form must be returned to the middle school counseling department by June 30<sup>th</sup> or to the school counseling department of the high school the student will attend (rising 9<sup>th</sup> graders) on or before August 1<sup>st</sup> of the year in which the student completes the 8<sup>th</sup> grade.

Please be aware that when a middle school student receives a grade of "F" in a high school creditbearing course, that grade and course will **automatically** be expunged from his/her transcript. A student who elects to expunge the grades from their high school records must understand that to receive high school credit for the course, he/she will need to repeat that course in the future in order to receive credit toward meeting state diploma requirements.

Should you have any questions regarding the expunging grades policy, please do not hesitate to contact your middle school counseling department. A copy of the expunge form can be found in Appendix A of this program of studies.

# Core Curriculum Descriptions Sixth Grade

The sixth grade student will have four required core classes (English, math, science, and social studies), health/physical education, and choices among exploratory rotations and/or a music course in his/her first year of middle school. The number of courses a student may take beyond the four core courses depends on how many double-period core courses the student takes. The following provides a description of the course options that are available for sixth graders. In addition, the school will share additional information on certain courses and rotations offered that are specific to the school.

## **English**

**English 6 (961XYB):** This two-period course provides instruction in vocabulary, reading comprehension, and literature, as well as in oral communication skills. Reading instruction integrated with the two domains of writing (composing/written expression and usage/mechanics) to produce multiparagraph narratives, descriptions, explanations, and persuasive writings will be the focus of this course. Near the end of the school year, students will take the sixth grade Reading Standards of Learning test.

**English 6A (961AY):** This **advanced-level class** is designed to meet the needs of sixth grade students with **well-developed reading and writing skills**. Vocabulary, literature, language, and writing instruction are taught in one class period, and thus instruction must move at a faster pace than in a one or two-period format. In addition, students in the advanced-level class will have opportunities for wider reading and writing experiences than those required by the sixth grade English Standards of Learning. Selection factors for considering placement of students into this advanced-level class include success on the 5<sup>th</sup> grade SOL test, teacher recommendation, and other test scores. Near the end of the school year, students will take the sixth grade Reading Standards of Learning test.

## **Mathematics**

<u>Math 6 (962XYB)</u>: This two-period course covers the sixth grade math Standards of Learning. The development of problem-solving skills will be a major goal. Students will use appropriate technologies such as calculators and computers. A wide range of skills and strategies will be developed in the following areas: number and number sense, computation and estimation, measurement, geometry, probability, statistics, patterns, and algebra. Near the end of the school year, students will take the sixth grade math Standards of Learning test.

Math 6A (Accelerated) (962AY): This course covers the seventh grade math Standards of Learning. Students will also identify applications of the mathematical principles that can be applied to science and other disciplines. Appropriate technologies such as calculators, computers, laser discs, and videos will also be utilized. There are selection factors for considering placement of students into this advanced-level class which can be found in the recommended instructional sequences section. Near the end of the school year, students will take the seventh grade math Standards of Learning test.

**PETAL Math Block 6/6A (Promoting Excellence Through Accelerated Learning) 962XAP & 962ABP**: This is a special program offered to selected students in a two-period course. Students in this course complete the sixth grade math Standards of Learning first semester and the seventh grade math Standards of Learning second semester. Rising sixth grade students who were in the on-grade level math course in fifth grade are invited to participate in this program during the summer based on factors which include the following: math achievement in fifth grade, elementary math SOL test scores, scores on LCS Division-benchmarks in math, teacher recommendations, and previous participation in the PETAL summer math program. Near the end of the school year, students will take the 6<sup>th</sup> grade SOL test. For additional information on the Sixth Grade PETAL Math Block, please contact the office of Engagement, Equity, and Opportunity in the School Administration Building, 434-515-5048.

# Core Curriculum Descriptions Sixth Grade (continued)

## **Science**

<u>Life Science 6 (963XY)</u>: This course emphasizes a complex understanding of changes, cycles, patterns, and relationships in the living world. Students use the inquiry approach to manipulate variables in experimentation, organize and analyze mathematical data, and summarize conclusions. Students study both the general science sixth grade Standards of Learning and the life science Standards of Learning.

<u>Life Science 6A (Advanced) (963AY)</u>: This course covers the same science Standards of Learning as the regular life science course but moves at a faster pace to allow time for additional opportunities for enrichment. Throughout the year, students complete alternative assessments to demonstrate their understanding and application of the course content.

### **Social Studies**

<u>United States History 6 (Part 1) 964XY</u>: This course covers the history of the United States from Pre-Columbian times until 1865. Students learn fundamental concepts in civics, economics, and geography as they understand ideas and events that strengthened the United States. Responsible citizenship is an emphasis as are the use of primary and secondary sources. Throughout the year, students complete alternative assessments to demonstrate their understanding and application of the course content.

<u>United States History 6A (Part 1) (Advanced) 964AY</u>: This advanced course covers the same SOL as the regular US History 1 course but moves at a faster pace to allow time for additional opportunities for enrichment of the curriculum. Throughout the year, students complete alternative assessments to demonstrate their understanding and application of the course content.

# **Physical Education**

**PE/Health 6:** The sixth grade physical education curriculum introduces students to physical activities which promote personal wellness, physical fitness, body management, and a basic knowledge of sports for leisure-time pursuits. The health curriculum covers the development of healthy personal characteristics and includes information on self-esteem, decision-making, self-discipline, acceptance, loyalty, honesty, cooperation, diligence, tolerance, and trustworthiness. Sixth grade family life deals with the physical, social, emotional, and psychological changes that occur at the time of puberty, and includes AIDS education.

# Core Curriculum Descriptions <a href="Seventh Grade">Seventh Grade</a>

The seventh grade student will have four required core classes (English, math, science, and social studies), health/physical education, and choices among semester electives and/or a music course in his/her second year of middle school. The number of courses a student may take beyond the four core courses depends on how many double-period core courses the student takes. The following provides a description of the course options that are available for seventh graders. In addition, the school will share additional information on certain courses and rotations offered that are specific to the school.

## **English**

**English 7 (971XYB):** This two-period course provides instruction in vocabulary, reading comprehension, and literature, as well as in oral communication skills. Reading instruction integrated with the two domains of writing (composing/written expression and usage/mechanics) to produce multi-paragraph narratives, descriptions, explanations, and persuasive writings will be the focus of this course. This class also includes oral communication. Near the end of the school year, students will take the seventh grade Reading Standards of Learning test

English 7A (971AY): This advanced-level class is designed to meet the needs of seventh grade students with well-developed reading and writing skills. Vocabulary, literature, language, and writing instruction are taught in one or two class periods. Instruction must move at a faster pace than in the English 7 format. In addition, students in the advanced-level class will have opportunities for wider reading and writing experiences than those required by the seventh grade English Standards of Learning. Selection factors for considering placement of students into this advanced-level class include success on the sixth grade Standards of Learning test, teacher recommendation and other test scores. Near the end of the school year, students will take the seventh grade Reading Standards of Learning test

## **Mathematics**

<u>Math 7 (972XYB)</u>: This two-period course covers the seventh grade math Standards of Learning. The development of problem-solving skills will be a major goal. Students will use appropriate technologies such as calculators and computers. A wide range of skills and strategies will be developed in the following areas: number and number sense, computation and estimation, measurement, geometry, probability, statistics, patterns, and algebra. Near the end of the school year, students will take the seventh grade math Standards of Learning test.

<u>Pre-Algebra 7A (Accelerated) (972AY)</u>: This course covers the eighth grade math Standards of Learning, including content that reviews and extends the concepts and skills learned in previous grades and new content that prepares students for more abstract concepts in algebra. There are selection factors for considering placement of students into this advanced-level class which can be found in the recommended instructional sequences section. Near the end of the school year, students will take the eighth grade math Standards of Learning test.

Advanced Algebra I (2387Y) High School Credit (1.0 credit): Prerequisite: Teacher recommendation and/or Advanced Pre-Algebra. This course is weighted as a 4.5 quality point course in terms of Grade Point Average (GPA). This course includes instruction in greater depth than the traditional Algebra I course. Students attach meaning to the abstract concepts of algebra by using tables and graphs to interpret equations and inequalities and to analyze functions. Matrices are used to organize and manipulate data. Calculators, computers, spreadsheets, and graphing calculators or computer graphing simulators are used to assist in solving problems. Advanced algebra is the initial course in the sequence of courses designed for a five-year accelerated math program. Near the end of the school year, students will take the Algebra I Standards of Learning test.

# Core Curriculum Descriptions Seventh Grade (continued)

#### **Science**

**Physical Science 7 (973XY):** This course provides an in-depth understanding of matter and energy. Students use experiments, technology, and literature reviews to build upon their investigation skills. Students in this course study the physical science Standards of Learning.

<u>Physical Science 7A (Advanced) (973AY)</u>: This course covers the same science SOL as the regular physical science course but moves at a faster pace to allow time for additional opportunities for enrichment of the curriculum and a solid review of previous science SOL. Near the end of the school year, students will take the eighth grade Science Standards of Learning test.

#### **Social Studies**

<u>United States History 7 (Part 2) 974XY</u>: This course covers the history of the United States from 1865 to the present. The standards for this course relate to the history of the United States from the Reconstruction era to the present. Political, economic, and social challenges facing the nation reunited are examined as students develop an understanding of how the American experience shaped the world's political and economic landscapes. Responsible citizenship is also an emphasis of this course. Throughout the year, students complete alternative assessments to demonstrate their understanding and application of the course content.

<u>United States History 7A (Part 2) (Advanced) 974AY</u>: This advanced course covers the same SOL as the regular US History 2 course but moves at a faster pace to allow time for additional opportunities for enrichment of the curriculum. Throughout the year, students complete alternative assessments to demonstrate their understanding and application of the course content.

## **Physical Education**

**PE/Health 7:** The physical education curriculum in the seventh grade focuses on the development of proficiency in specific areas of physical fitness through instruction and participation in team, individual, and dual sports. Emphasis is placed on skill development, playing strategies and rules of the game, and an appreciation for the aesthetic value of body management as it relates to dance and gymnastics. Health instruction includes information on the effects of alcohol and other drugs; information on the causes, symptoms, prevention, and treatment of communicable and non-communicable diseases; and first aid techniques. The relationship between nutrition and the development of good mental, physical, and emotional health is also covered. Family life topics include family relationships, human sexuality and loving relationships, and the causes and treatments of sexually transmitted diseases, including AIDS.

# Core Curriculum Descriptions <a href="Eighth Grade">Eighth Grade</a>

The eighth grade student will have four required core classes (English, math, science, and social studies), health/physical education, and choices among semester electives and/or a music course in his/her third year of middle school. High school credit courses are also available in this year. The number of courses a student may take beyond the four core courses depends on how many double-period core courses the student takes. The following provides a description of the course options that are available for eighth graders. In addition, the school will share additional information on certain courses and rotations offered that are specific to the school.

# **English**

<u>English 8 (981XYB)</u>: This two-period course provides instruction in vocabulary, reading comprehension, and literature, as well as in oral communication skills. Reading instruction integrated with the two domains of writing (composing/written expression and usage/mechanics) to produce multi-paragraph narratives, descriptions, explanations, and persuasive writings will be the focus of this course. Near the end of the school year, students will take the eighth grade Reading and eighth grade Writing Standards of Learning tests.

**English 8A (981AY):** This **advanced-level class** is designed to meet the needs of eighth grade students with **well-developed reading and writing skills**. Vocabulary, literature, language, and writing instruction are taught in one or two class periods, and thus instruction must move at a faster pace than in the one or two-period format. In addition, students in the advanced-level class will have opportunities for wider reading and writing experiences than those required by the eighth grade English Standards of Learning. Selection factors for considering placement of students into this advanced-level class include success on the 7<sup>th</sup> grade SOL test, teacher recommendation and other standardized tests scores. Near the end of the school year, students will take the eighth grade Reading and eighth grade Writing Standards of Learning tests.

## **Mathematics**

Foundations of Algebra 8A (982AYB): This two-period course covers the eighth grade math Standards of Learning (SOL) and some of the Algebra 1 Standards of Learning curriculum. This course provides introductory instruction in the properties and basic operations of rational numbers including algebraic and graphical representation, linear equations and inequalities, and solving of these equations. Near the end of the school year, students will take the eighth grade math Standards of Learning test unless that Standards of Learning test was completed in seventh grade.

Advanced Algebra I (2387Y) High School Credit (1.0 credit): Prerequisite: Teacher recommendation and/or Advanced Pre-Algebra. This course is weighted as a 4.5 quality point course in terms of Grade Point Average (GPA). This course includes instruction in greater depth than the traditional Algebra I course. Students attach meaning to the abstract concepts of algebra by using tables and graphs to interpret equations and inequalities and to analyze functions. Matrices are used to organize and manipulate data. Calculators, computers, spreadsheets, and graphing calculators or computer graphing simulators are used to assist in solving problems. Advanced algebra is the initial course in the sequence of courses designed for a five-year accelerated math program. Near the end of the school year, students will take the Algebra I Standards of Learning test.

# Core Curriculum Descriptions <u>Eighth Grade (continued)</u>

#### **Mathematics**

Advanced Algebra II (2397Y) High School Credit (1.0 credit): Prerequisite: Advanced Algebra I. This course is weighted as a 4.5 quality point course in terms of Grade Point Average (GPA). The first semester includes the study of equations, inequalities, relations, functions, systems of equations, matrices, polynomials, irrational numbers, complex numbers, and conic sections. The second semester of this course includes the study of higher degree polynomials, rational and exponential functions, and statistics and probability. Near the end of the school year, students will take the Algebra II Standards of Learning test.

#### **Science**

<u>Principles of Science 8 (983XY)</u>: This course enables students to complete an extended study of general, life, and physical science. The living world, matter, energy, and scientific experimentation are explored in depth. Students completing this course take the eighth grade Science Standards of Learning test.

Advanced Earth Science 8 (3387Y) High School Credit (1.0 Credit): Prerequisite: Teacher recommendation and/or physical science. This course is weighted as a 4.5 quality point course in terms of Grade Point Average (GPA). The major topics studied in this course are oceanography, meteorology, geology, and astronomy, each with accompanying laboratory activities. Near the end of the school year, students take the Earth Science Standards of Learning test.

## **Social Studies**

<u>Civics and Economics 8 (984XY)</u>: This course covers the Constitutions of the United States and Virginia, as well as the structure and functions of government institutions at the national, state, and local levels. Students also study the basic principles, structure, and operation of the American economy. Standards for this course examine the roles citizens play in the political, governmental, and economic systems in the United States. Responsible citizenship is also an emphasis of this course. Near the end of the school year, students take the Civics/Economics Standards of Learning test.

<u>Civics and Economics 8A (Advanced) (984AY)</u>: This advanced course covers the same Standards of Learning (SOL) as the regular civics/economics course but moves at a faster pace to allow time for additional opportunities for enrichment of the curriculum. Near the end of the school year, students take the Civics/Economics Standards of Learning test.

# Core Curriculum Descriptions <u>Eighth Grade (continued)</u>

# Foreign Language

**LATIN I (1780Y) High School Credit (1.0 credit):** This first-year Latin course provides the foundation for understanding Latin and the basis for learning any foreign language. Students enlarge their vocabulary, refine grammar in English, and learn about the origins of many aspects of our culture while reading the history, myths, and legends of the ancient Romans.

**SPANISH I (1880Y) High School Credit (1.0 credit)**: This introductory course is an initiation into language as a means of active communication for which a reasonable proficiency in understanding, speaking, reading, and writing Spanish is the overall goal. Frequent conversational activities, projects, and dramatizations involve students actively in the language.

**FRENCH I (1580Y) High School Credit (1.0 credit):** Communicating in French is the highlight of these beginning semesters of language study. Students become involved immediately in using the language to simulate daily life situations. Activities include speaking, listening, writing, reading, and learning about French culture. Correlated audio-visuals serve as stimuli to involve students in conversations of interest to teenagers.

<u>GERMAN I (1680Y) High School Credit (1.0 credit)</u>: In this introductory course, students become involved with the German language through conversations and readings relating to everyday chores, school, family, leisure-time activities, foods, weather, travel, parties, and shopping. During the second semester, students read longer narratives in the target language about important cities, states, German-speaking regions, and holidays. Authentic audio-visual aids reinforce aural-oral skills while lending authentic cultural insights. (Paul Laurence Dunbar Middle School for Innovation only)

# **Physical Education**

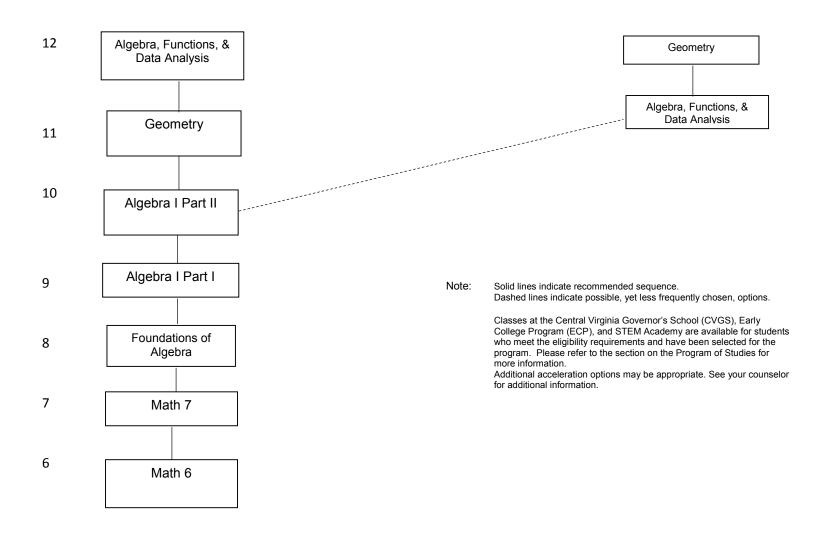

<u>PE/Health 8</u>: This course emphasizes the further development of flexibility, agility, cardiovascular endurance, balance, coordination, time, and speed. Students continue to develop skills in physical coordination and movement through the performance of dance and gymnastics routines. The history of team, individual, and dual sports is introduced, and specific rules and knowledge of playing strategies are reinforced. Health units continue instruction on the effects of tobacco, alcohol, and other drugs. Personal wellness and good mental health are promoted through the study of healthy lifestyles. Emphasis is placed on safety at home, at school, and in the community. Family life units focus on the stages of human growth and development. Emphasis is placed on responsible behaviors in dealing with sexuality, and topics covered include sexual abstinence, coping skills, teen pregnancy, the prevention of sexual assault, and AIDS awareness and prevention.

# **Math Instructional Sequences**

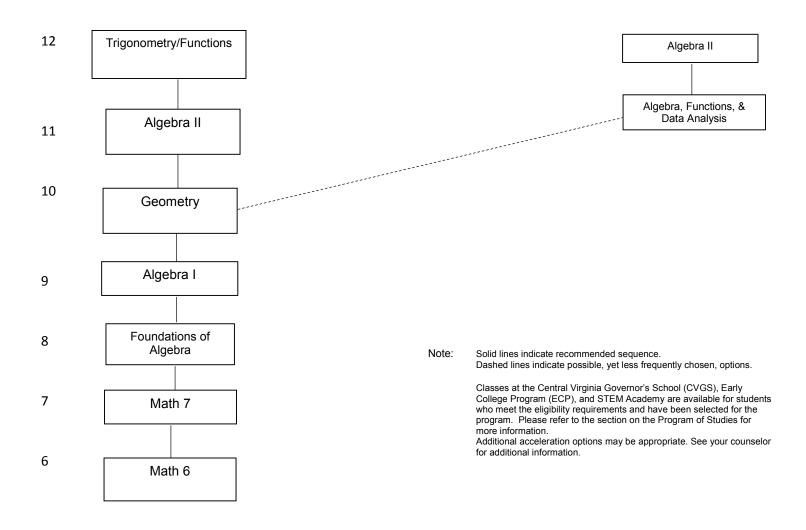

The following charts illustrate possible math course sequences and placement for the courses in middle school. Each student should select courses within the sequences which are most closely related to his or her strengths and educational/career goals of students. Students may also move from one sequence to another as students, parents, teachers and school counselors perceive a need and as the student's progress indicates. Advanced Placement (AP) and dual enrollment (DE) courses, which can provide both high school and college credit, are available to high school students who meet the requirements. Additional information on these high school courses may be obtained from the school counseling department at each high school.

It is encouraged that parents and students review frequently the graduation and diploma requirements. Graduation and diploma requirement information can be found in the high school program of studies and at <a href="http://www.lcsedu.net/departments/curriculum/program-of-studies.">http://www.lcsedu.net/departments/curriculum/program-of-studies.</a>

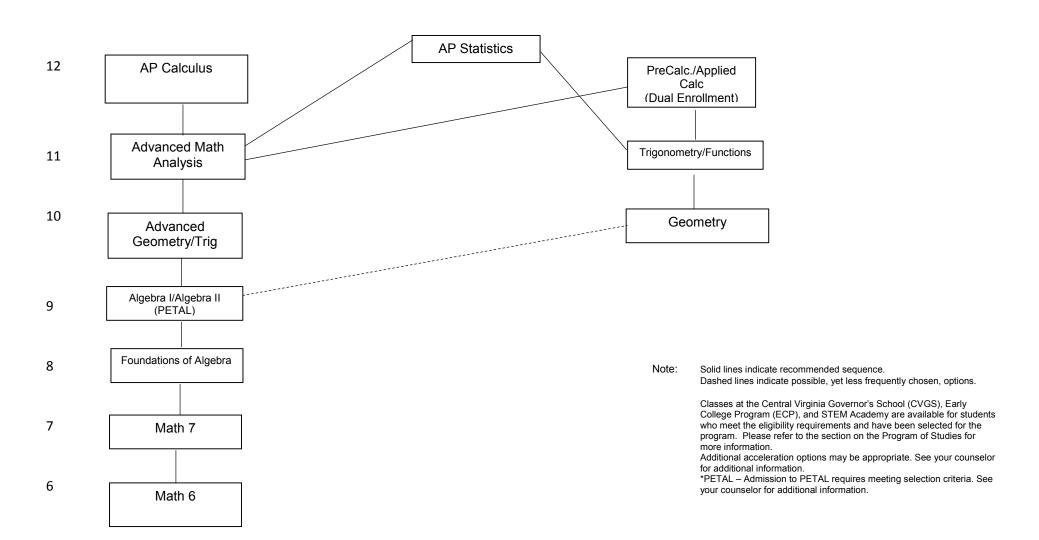

#### OPTION 1 – Algebra I Part I in 9th Grade

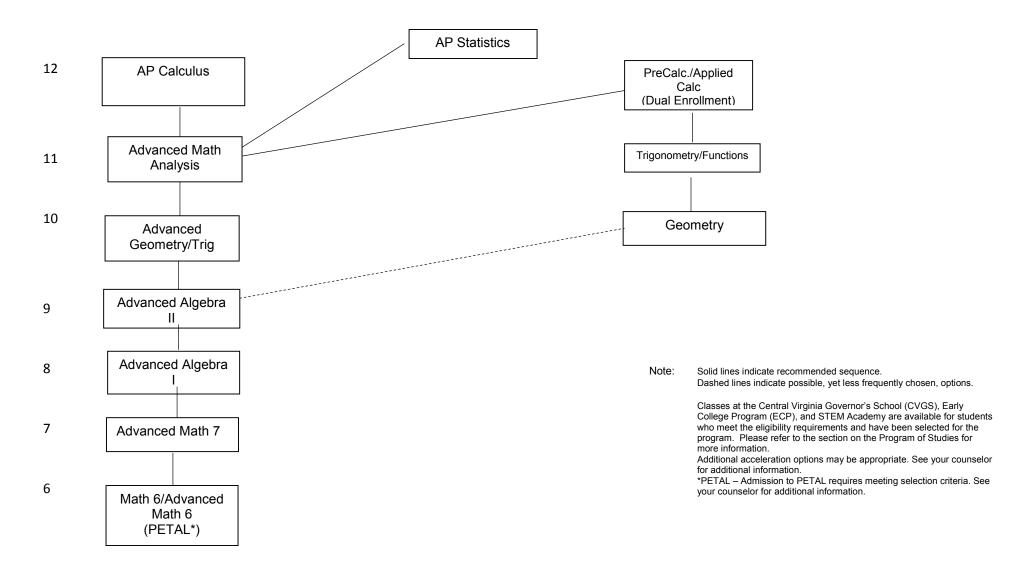

#### OPTION 2 – Algebra I in 9th Grade

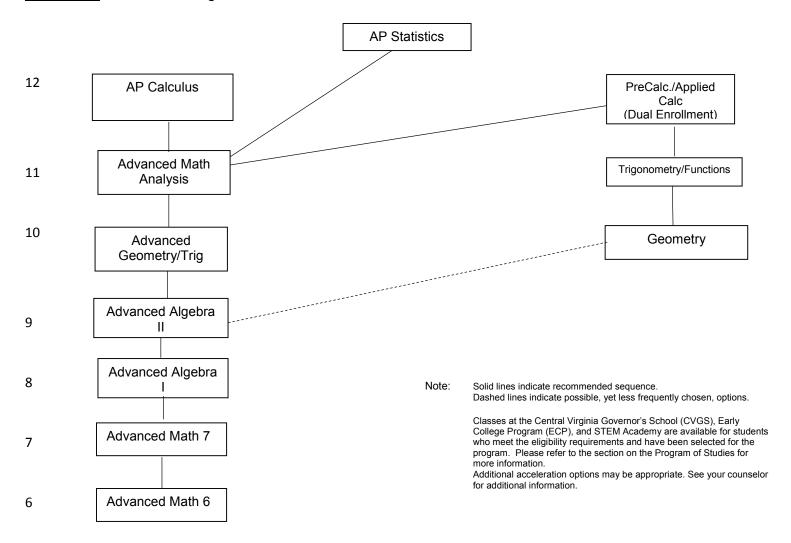

#### OPTION 3 - Algebra I/ Algebra II (PETAL) in 9th grade

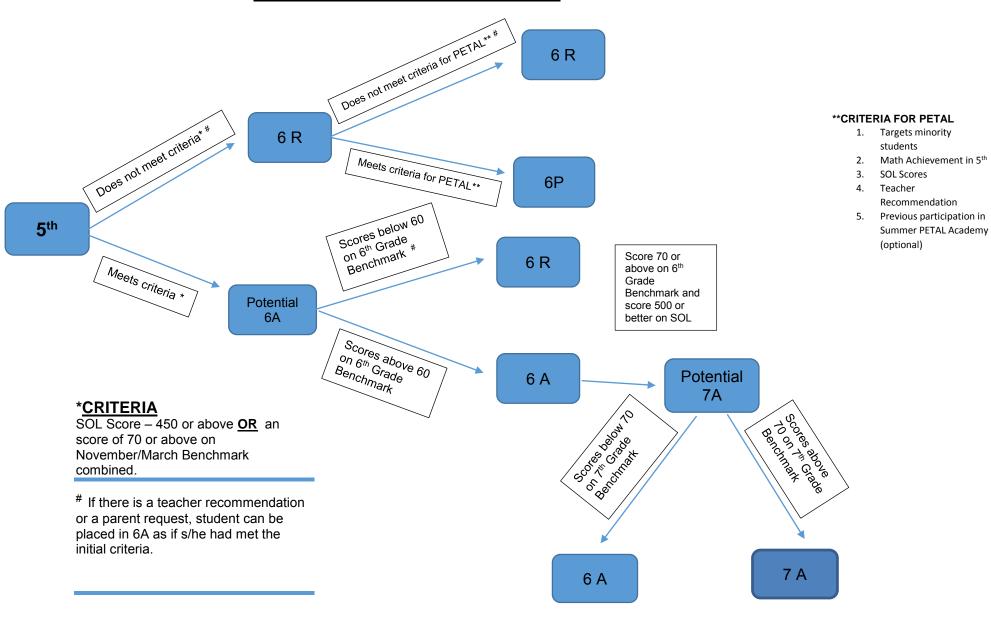

#### **OPTION 4** – Advanced Algebra II in 9<sup>th</sup> Grade (PETAL in 6<sup>th</sup> Grade)

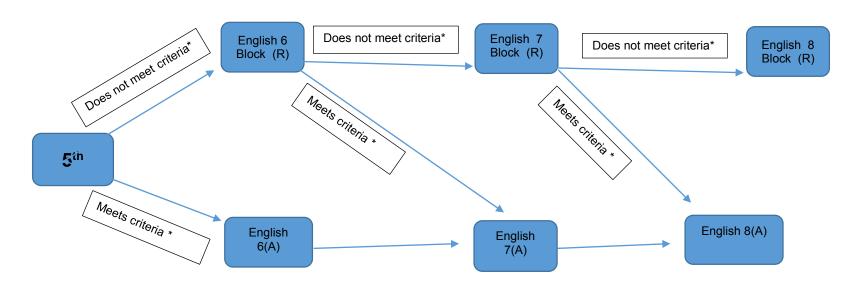

#### **OPTION 5** – Advanced Algebra II in 9<sup>th</sup> Grade

# MATH PLACEMENT CRITERIA

# **ENGLISH PLACEMENT CRITERIA**

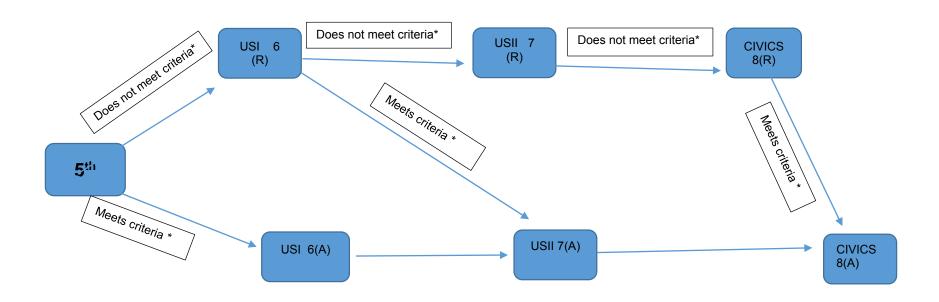

#### \*CRITERIA

SOL Score – 450 or above <u>OR</u> an average score of 70 or above on November/March Benchmark

Teacher Recommendation (report on effort – can only help student)

# If there is a teacher recommendation or a parent request, student can be placed in 6A as if s/he had met the initial criteria.

# SOCIAL STUDIES PLACEMENT CRITERIA

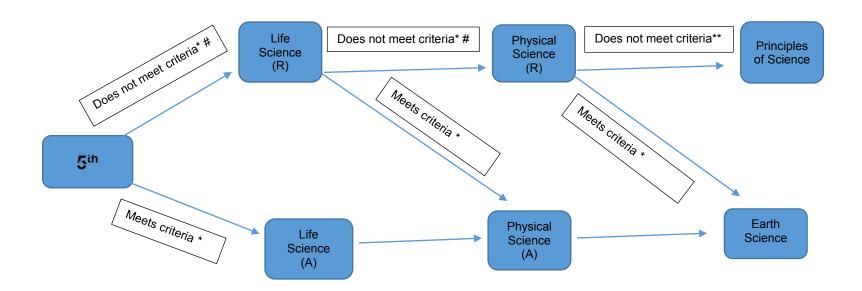

#### \*CRITERIA

SOL Score – 450 or above <u>OR</u> an average score of 70 or above on November/March Benchmark

Teacher Recommendation (report on effort – can only help student)

<sup>\*</sup> If there is a teacher recommendation or a parent request, student can be placed in 6A as if s/he had met the initial criteria.

# **SCIENCE PLACEMENT CRITERIA**

#### \*CRITERIA

- 1. SOL Score 450 or above **OR** an average score of 70 or above on November/March Benchmark combined
- 2. Teacher Recommendation (report on effort can only help student)

<sup>\*</sup> If there is a teacher recommendation or a parent request, student can be placed in 6A as if s/he had met the initial criteria.

# Middle School Exploratory Overview

Exploratory courses are offered in the areas of foreign language, cultural arts, technology and career-technology, and enrichment of the core subjects. Each middle school offers a varied array of exploratory rotations that range from nine to eighteen weeks in length. School specific offerings are available through the course scheduling form and from your school counseling office. Exploratory rotations are courses that students are scheduled into that afford students opportunities to explore their interests and talents.

Exploratory course offerings are subject to change bases on interest inventories, scheduling constraints, and staffing availability.

#### **Middle School Electives Overview**

Lynchburg City Schools' middle schools offer a wide array of elective offerings based on course enrollment. School specific offerings are available on each school's website. In support of the middle school philosophy, all three middle schools offer elective and enrichment courses in the areas of foreign language, cultural arts, theatre, technology and career-technology. Electives are courses student's choose or "elect" to take. Specialized electives and enrichment opportunities provide students with differentiated instruction and an advanced curriculum to address students' unique intellectual gifts and talents. Elective and enrichment offerings are subject to change based on interest inventories, scheduling constraints, and staffing availability.

#### **Career-Technical Education Overview**

A wide variety of Career and Technical Education courses are offered at each middle school. A full list of CTE courses are available through the school counseling department at each school.

Middle school opportunities also exist in: Family and Consumer Science, Business and IT, Webpage Design, Computer Applications, Technology Systems/STEM, Health and medical Sciences/STEM, Technical Drawing/CAD, Computer Applications, Inventions and Innovations, Digital Photography, TV and media Production and Career Investigation.

# High School Credit Courses offered at the Middle School Level

**Keyboarding (6240A) High School Credit (0.5 credits per semester):** *Prerequisite: None.* Students develop and enhance touch skills for entering alphabetic, numeric, and symbol information on a keyboard. Students compose and produce a variety of personal, educational, and professional documents.

Keyboarding Applications (6250B) High School Credit (0.5 credits per semester): Prerequisite: Keyboarding (6240A) or mastery of touch typing. Students enhance touch skills for entering alphabetic, numeric, and symbol information on a keyboard. Students compose and produce a variety of personal, educational, and professional documents with an emphasis on speed and accuracy. (Linkhorne Middle School only)

## Foreign Language

**LATIN I (1780Y) High School Credit (1.0 credit)**: This first-year Latin course provides the foundation for understanding Latin and the basis for learning any foreign language. Students enlarge their vocabulary, refine grammar in English, and learn about the origins of many aspects of our culture while reading the history, myths, and legends of the ancient Romans.

**SPANISH I (1880Y) High School Credit (1.0 credit)**: This introductory course is an initiation into language as a means of active communication for which a reasonable proficiency in understanding, speaking, reading, and writing Spanish is the overall goal. Frequent conversational activities, projects, and dramatizations involve students actively in the language.

**FRENCH I (1580Y) High School Credit (1.0 credit):** Communicating in French is the highlight of these beginning semesters of language study. Students become involved immediately in using the language to simulate daily life situations. Activities include speaking, listening, writing, reading, and learning about French culture. Correlated audio-visuals serve as stimuli to involve students in conversations of interest to teenagers.

<u>GERMAN I (1680Y) High School Credit (1.0 credit)</u>: In this introductory course, students become involved with the German language through conversations and readings related to everyday chores, school, family, leisure-time activities, foods, weather, travel, parties, and shopping. During the second semester, students read longer narratives in the target language about important cities, states, German-speaking regions, and holidays. Authentic audio-visual aids reinforce aural-oral skills while lending authentic cultural insights. (Paul Laurence Dunbar Middle School for Innovation only)

### **Drama**

INTRODUCTION TO THEATRE, Grade 8 (0.5 credits per semester): Prerequisite: Teacher Recommendation. This course is a basic introduction to acting and other theatre skills. Course content includes units in Theatre Games, Improvisation, Stagecraft, Theatre Vocabulary and Terminology, and Theatre History. (Paul Laurence Dunbar Middle School for Innovation only)

# High School Credit Courses offered at the Middle School Level (continued)

### **Mathematics**

Advanced Algebra I (2387Y) High School Credit (1.0 credit)

**Prerequisite**: teacher recommendation and/or Advanced Pre-Algebra. *This course is weighted as a 4.5 quality point course in terms of Grade Point Average (GPA)*. This course includes instruction in greater depth than the traditional Algebra I course. Students attach meaning to the abstract concepts of algebra by using tables and graphs to interpret equations and inequalities and to analyze functions. Matrices are used to organize and manipulate data. Calculators, computers, spreadsheets, and graphing calculators or computer graphing simulators are used to assist in solving problems. Advanced algebra is the initial course in the sequence of courses designed for a five-year accelerated math program. Near the end of the school year, students will take the Algebra I Standards of Learning test.

#### Advanced Algebra II (2397Y) High School Credit (1.0 credit)

Prerequisite: Advanced Algebra I. This course is weighted as a 4.5 quality point in terms of Grade Point Average (GPA). The first semester includes the study of equations, inequalities, relations, functions, systems of equations, matrices, polynomials, irrational numbers, complex numbers, and conic sections. The second semester of this course includes the study of higher degree polynomials, rational and exponential functions, and statistics and probability. Near the end of the school year, students will take the Algebra II Standards of Learning test.

#### **Science**

#### Advanced Earth Science 8 (3387Y): High School Credit (1.0 Credit)-SOL Test

**Prerequisite:** teacher recommendation and/or physical science. *This course is weighted as a 4.5 quality point course in terms of Grade Point Average (GPA).* The major topics studied in this course are oceanography, meteorology, geology, and astronomy, each with accompanying laboratory activities. Near the end of the school year, students take the Earth Science Standards of Learning test.

# **Specialized Programs**

#### Paul Laurence Dunbar Middle School for Innovation

This magnet school draws from an applicant pool of students in all three middle school attendance zones. Inquiries regarding the school for innovation applications to Paul Laurence Dunbar Middle School for Innovation should be directed to the Department of Information Technology, School Administration Building, 515-5017. Paul Laurence Dunbar Middle School for Innovation offers innovative programs not available at the other middle schools. Paul Laurence Dunbar Middle School for Innovation offers an extensive curriculum in foreign languages ranging from exploratory courses to second year courses. Students at Paul Laurence Dunbar Middle School for Innovation may choose to take Spanish, Latin, French and German. Paul Laurence Dunbar Middle School for Innovation also offers a diverse drama curriculum and schedules a variety of performances throughout the school year. Paul Laurence Dunbar Middle School for Innovation is also home to *Earth Zone*, a program that allows for hands-on herpetology and marine biology classes.

#### Gifted Education

The middle school program for gifted education is designed to serve students who demonstrate a specific academic aptitude. The program is provided primarily through advanced and accelerated courses offered in English, math, science, and social studies as well as through differentiated instruction within the classroom. Additional gifted course offerings maybe available during exploratory periods. The Lynchburg City Schools Local Plan for the Education of the Gifted provides detailed information on referral and identification processes, as well as the services provided for identified students. Eighth graders have the opportunity to accelerate their program of studies by taking high school credit courses in the areas of math, science, and foreign language. In some cases, extremely gifted students have required an accelerated program of study which includes traveling to one of the high schools for courses. However, this type of service is rare and presents some logistical challenges. Students and their parents are encouraged to contact the school principal to learn more about all the gifted services available to middle school students and the opportunities they provide.

## **Special Education**

Programs available for students with disabilities are provided according to the student's *Individualized Education Plan*. Referrals for special services are routinely made by parents, counselors, and teachers through the school principal; however, a student can only be considered after authorization is secured from the parent or legal guardian.

Placement in a special education class or program is contingent upon the results of extensive diagnostic testing and evaluation. Scheduling is done on an individual basis according to the needs of each student.

Since the instructional program in all special education classes is based on each student's individual needs, individual educational programs are developed by the school in conjunction with parental permission and input.

The Lynchburg City School Division does not discriminate in admission to, or access to, or treatment or employment in its educational programs, services, or activities based on race, color, national origin, sex, disability, or age in accordance with state and federal laws. Inquiries regarding this policy may be directed to the Director of Personnel Services, 915 Court Street, P.O. Box 2497, Lynchburg, Virginia 24505-2497; telephone number (434) 515-5050.

# REQUEST TO EXPUNGE GRADE FOR HIGH SCHOOL COURSE TAKEN IN MIDDLE SCHOOL

#### -INCOMPLETE FORMS CANNOT BE PROCESSED-

(PRINT)

FULL NAME OF STUDENT
ADDRESS
NAME OF PARENT/GUARDIAN
PARENT/GUARDIAN PHONE NUMBER
NAME OF HIGH SCHOOL STUDENT WILL ATTEND FOR THE FOLLOWING SCHOOL YEAR (HHS or ECG)

- I wish to expunge the following high school credit-bearing course taken by my child while in middle school during grades 6, 7, and/or 8.
- I understand that my child will receive no high school credit toward graduation for this course and may have to repeat this course if it is a required prerequisite course.
- I understand that the SOL verified credit will not be awarded to my child until course is passed and credit awarded.
- I further understand that decision is irreversible and must be made prior to enrollment in high school.

NAME OF COURSE GRADE LEVEL/YEAR IN WHICH WILL THE CLASS BE REPEAT						
NAME OF COURSE	GRADE LEVEL/YEAR IN WHICH COURSE WAS TAKEN	WILL THE CLASS BE REPEATED?				
SAMPLE: ALGEBRA I	2015-2016/Grade 8	Yes				
Printed Name of Parent/Guardian:						
Signature of Parent/Guardian:						

Return this form to the Middle School Counseling Department **before or by June 30**<sup>th</sup>. **Or** 

Return this form to the High School Counseling Department before or by August 1st.

# **Agenda Report**

Date: 03/15/16

Agenda Number: G-2

Attachments: No

From: Scott S. Brabrand, Superintendent

Ben W. Copeland, Assistant Superintendent of Operations and Administration

**Subject:** Capital Improvement Plan: Heritage High School

#### **Summary/Description:**

The Heritage High School project includes funds set aside for hiring a professional moving company to relocate the contents of the existing Heritage High School building to the newly built Heritage High School. The City of Lynchburg Office of Procurement and Purchasing has received bids on the project.

A listing of all bids received are listed below. The school administration recommends the highlighted bid.

BIDDER	Richmond	Southwest	Lawrence	Blue Ridge	Moody
	Commercial	Virginia	Transportation	Logistics,	Moving &
	Services, Inc.	Moving	Systems, Inc.	LLC	Storage, Inc.
BASE BID	\$54,985	\$62,938	\$91,573	\$118,200	\$149,000

 $\overline{\square}$  Action at Meeting on: 04/05/16

#### Recommendation:

The superintendent recommends that the school board receive this agenda report as an informational item and consider action at the school board meeting on April 5, 2016.

# **Agenda Report**

Date: 03/15/16

Agenda Number: G-3

Attachments: No

From: Mary Ann Hoss, Chairman

Subject: VSBA School Board Training

#### **Summary/Description:**

On March 3, 2016, the Lynchburg City School Board and the superintendent participated in training which focused on the roles and responsibilities of the school board and the superintendent. Members of the school board will discuss governance norms and protocols for school board meetings, interaction during those meetings, and interaction with members of the Lynchburg City Schools' community.

Disposition: Action

Information

#### Recommendation:

The superintendent recommends that the school board receive this agenda report as an informational item and consider action at the school board meeting on April 5, 2016.
