

INSTRUCTION

Scheduling Students for More Than One Required Course in the Same Subject Area

Sequential courses within a subject area (i.e., math, English, social studies, etc.) are normally to be taken one at a time and in the order presented in the "Program of Studies." An advanced student may, upon approval from the school principal, however, take two courses within the same subject area concurrently each year after successfully completing his program of studies in grade nine. The advanced student will be limited to one subject area each year from which the two courses may be selected. A student who has failed a required subject will be permitted, pending the principal's approval, to repeat the course at the same time he is taking a second course in the same subject area only if doing so will enable the student to graduate at the end of the school year.
