Specific Boundaries:

A list of various school boundaries and maps illustrating said boundaries which have been approved by the school board are available through the director of student services. A street-by-street description of school zones follows.

Maintaining Proper Enrollment:

Principals or their designees shall make reasonable efforts to ensure that accurate addresses are maintained on students and that only those living within school boundaries (in accordance with board policies 7-12, 7-14) are enrolled in their schools.
